Question:	What did you like about the course?
Response Rate:	20.00% (1 of 5)

1	Pace of class was where it should be. Lecture videos were good, and until the last couple chapters did a great job preparing for the homework. No live sessions, and using Piazza for discussion board.

Question:	What did you dislike about the course? Do you have any suggestions to improve the course?
Response Rate:	20.00% (1 of 5)

1	Instructors slow and unclear to form questions, slow to grade assignments, RPNow.

Question:	What did you like the most about the course?
Response Rate:	20.00% (1 of 5)

1	Good lecture videos, instructor kept things simple, total night and day difference from Math 275	🔍

Question:	**What did you like the least about the course?**
Response Rate:	40.00% (**2** of **5**)

1	Vague responses on discussion board, RPNow offering no feedback. Just have to follow instructions best of your ability and hope for no flukes, or technical issues.	🔍
2	I didn't like the entire format for taking exams. Having to enter into two different exams to take one exam makes absolutely no sense. The criteria for displaying my scratch paper after completing the exam is a complete hit or miss, there is no way for me to verify that the image was clear. Timeliness of the grades is inadequate, currently into the last week of the course, if any instructor feels that I didn't show my work for the first exam then I will fail the course, and I currently have 100% on everything else. If there is any such criteria in future courses, where I can't verify for myself that my work is legible in the camera image then I will strongly consider pursuing further education elsewhere. It is completely unethical to say to students, "Show your scratch work after the exam, but you will have no means to verify that it was legible to the proctor."	🔍

1	Vague on answers to discussion board questions. Too worried about "anonymous" posts when time should have been spent answering questions.	🔍
