Question:	**What did you like about the course?**
Response Rate:	**100.00**% (**3** of **3**)

1	The professor can have some moments of being funny.
2	The amount of information attached to one session. I was not overwhelming. Harder subjects took an entire class, easier ones were done in pairs on the same session.
3	Shows derivations on how formulas are found then gives examples of how to use the formula as well as how it is used in the industry. One of the best instructors I have had. Give this man a raise!

Question:	**What did you dislike about the course? Do you have any suggestions to improve the course?**

1	Watch those negative signs.
2	N/a
3	From his methods of teaching, it didn't help so much to understand some of the concepts we've gone over. It would help if we did more examples in class.
