Question:	What did you like about the course?
Response Rate:	100.00% (3 of 3)

1	The flexibility of the course work and assignments makes it easy to comprehend and keep up.	
2	Nothing, there is a 25 minute video that is a poor example of what is asked on the homework. Homework is 15-20 questions and the lectures cover 3 examples.	
3	I think we had a lot of videos available.	

Question:	What did you dislike about the course? Do you have any suggestions to improve the course?
Response Rate:	100.00% (3 of 3)

1	The instructor/professor needs to go over homework problems with the students. When asked in Piazza for help the instructor answered with the vocabulary as if talking to another professor that is a math whiz.	

2	No complaints	🔍
3	I thought the videos were helpful, but there were two types of videos. It was difficult to see two different lecturers because their styles were different. I also dislike that the instructor took on too many classes/students and made a point to throw it out there often. If your instructor is saying he is too busy, that is a little discouraging and definitely feels like we are a number lost in the crowd.	🔍

Question:	What did you like the most about the course?
Response Rate:	66.67% (**2** of **3**)

1	N/A	🔍
2	It engaging, lecture videos are to the point and easy to follow.	🔍

Question:	What did you like the least about the course?
Response Rate:	66.67% (**2** of **3**)

1	The instructor was not present in any of the presented math content. I used youtube and khan academy more than the content provided from ASU.	🔍
2	Less examples solved per subtopic for each chapter	🔍

Question:	What did you like about the instructor or the method of instruction?
Response Rate:	66.67% (**2** of **3**)

1	This instructor was completely absent throughout the course. There were maybe 10 total posts in Piazza and the instructor throughout the course made comments on how he had over 200+ students so our grades and answers would take time. The instructor is not in any of the videos for the course and made no engagement with the course. I cannot believe you are making students pay for this education when youtube offers better lessons.	🔍
2	The fact that you have lecture videos to guide you at all times when studying	🔍

Question:	What did you dislike about the instructor or method of instruction? Do you have any suggestions to improve instruction?
Response Rate:	66.67% (**2** of **3**)

1	The textbook for this course only solve 1 example under each subtopic so it will be beneficial if the instructor solves multiple examples in the lecture videos.	🔍
2	The instructor did not instruct anything. I am watching old videos that are copy/paste semester after semester. This is an outdated learning experience and needs to reevaluated. When I pay for tuition I expect that the instructor assigned to the course actually teaches the material.	🔍
