<b>Question:</b>	What did you dislike about the course? Do you have any suggestions to improve the course?
<b>Response Rate:</b>	85.71% (6 of 7)

1	n/a	
2	Rude and unhelpful through email. Homework and notes are out of order and do not align. Tests were very hard	
3	None	
4	I felt like the ASU website lectures were more straight forward than the zoom lectures.	
5	Everything. The pace of learning was too fast and not enough explanation on the subject	
6	As our instructor suggested, I too believe it would further help us students if Linear Algebra was made a pre-requisite for this course.	

<b>Faculty:</b> Brian England		
<b>Question:</b> What did you like about the instructor or the method of instruction?		
<b>Response Rate:</b>	85.71% (6 of 7)	
1	explained everything very clear	
2	The professor offered both synchronous zoom meetings as well as pre-recorded videos to supplement the material, which allowed students to learn material in class while also having the videos available to go over examples or reinforce any concepts that they may have issues with. There are also several websites with further video and written examples that helped immensely with studying and going over concepts.	
3	Professor England is a fair instructor and has a very good understanding of the material. He grades on partial credit and tries to give students the most points he can which I appreciate.	
4	Professor England is very supportive, hard-working and easily reachable about the course material. He responds to mails and questions on Piazza very quickly (sometimes almost instantaneously). Also, in this time of online learning, he did his best to ensure that he could bridge the gap between in-person classes and online lectures.	
5	NOTHING	
6	Knew what he was teaching

Question:		What did you dislike about the instructor or method of instruction? Do you have any suggestions to improve instruction?	
Response Rate:		85.71% (6 of 7)	
1	n/a		
2	Rude and impatient. Needs to be more understanding not everyone is at his level.		
3	Professor England prides himself on being a fair and kind instructor, which he is for the most part. However, there were multiple occasions throughout the semester where I felt he was unnecessarily rude to students and berated them for their questions.		
4	None		
5	I can't think of anything that I'd disliked about the Professor during the period of this course. I really enjoyed the course from start to end!		
6	HUGE attitude problem. I have only had one other professor at this school that made me afraid of asking for help in a class; now, you are my second. Lose your attitude and pay attention to how you are talking to your students; it's discouraging and demeaning.
